The American Israel Public Affairs Committee is the only American organization whose principal mission is to lobby the U.S. government about legislation that strengthens the relationship between the United States and Israel.

AIPAC is registered as a domestic lobby and supported financially by private donations. The organization receives no financial assistance from Israel, from any national organization or any foreign group. AIPAC is not a political action committee. It does not rate, endorse or contribute to candidates. Because it is a lobby, contributions to AIPAC are not tax-deductible.
