

The nuclear agreement allows Iran to deny inspectors access to suspect sites for up to 24 days.

WHAT CAN **IRAN** **HIDE** IN **24** DAYS?

- Most weaponization activity
- Centrifuge manufacturing
- Centrifuge components
- Uranium stockpiles
- Incriminating documentation, computers, hard drives
- Computer modeling to simulate nuclear explosive devices
- Work on firing systems
- Experiments with explosive lenses
- Missile components

**Most intrusive inspections ever?
We need a better deal.**
