

MOUNTING THREATS ON ISRAEL'S

SOUTHERN BORDER

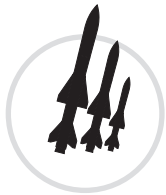

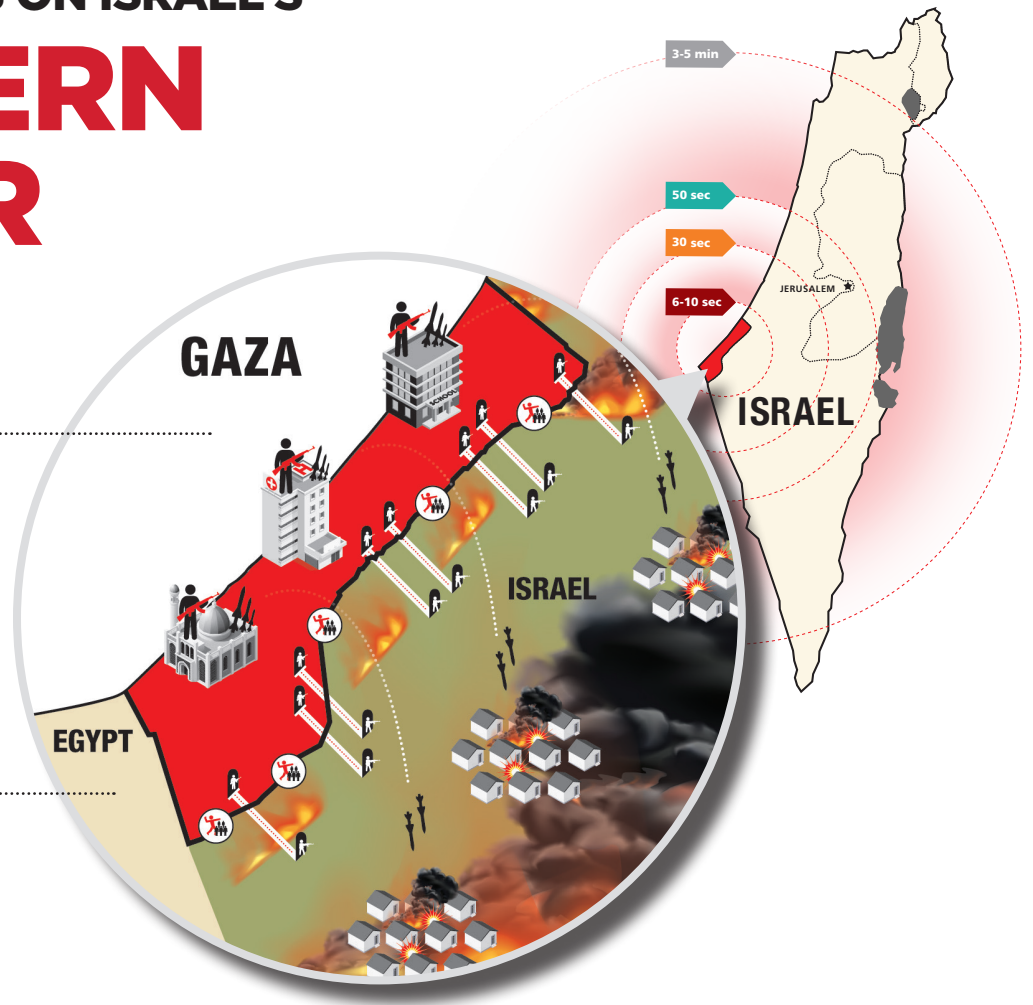

Hamas & Palestinian Islamic Jihad

perversely exploit civilians by employing them as human shields.

ISIS in Sinai

engages in heavy fighting with the Egyptian army and openly states intention to target Israel.

Rockets & Mortars

Hamas and Palestinian Islamic Jihad launch rockets and mortars into Israeli communities, including more than 400 in July and August 2018 alone.

Fire Kites & Balloons

Airborne incendiary devices burn Israeli farms, parks and nature reserves (razing more than 8,000 acres, to date).

Terror Tunnels

Hamas diverts humanitarian construction material (more than \$120 million, to date) to build militarized tunnels in Gaza and cross-border tunnels for attacking Israelis.

Violent Riots

Hamas instigates riots along the Gaza-Israel border as a cover for its terrorist efforts and attempts to infiltrate and attack Israeli communities.

Israel now faces mounting threats on its southern border—

from the Hamas-controlled Gaza Strip to ISIS-affiliated groups in the Sinai Peninsula. Hamas and other terrorist groups threaten Israel through ongoing rocket and mortar attacks, incendiary kites and balloons, the construction and use of terror tunnels, and violent riots.
